Modern Bank Building and Equipment

The handsome new building erected by the Bank of Campbell is one which our people point to with no little pride. The fact that this institution can erect such a building at this time, during the cry of short crops and hard times, would indicate that there is more money in circulation in this community than is generally believed. The new structure occupies the southwest corner of Campbell and Central avenues and faces the north. It is one story high and built of concrete and faced with white pressed brick, making a very beautiful appearance. Although the interior is not entirely finished, the firm has been occupying the rooms since March 6th. The portion of the building used for banking purposes is 30x52 feet. The west half, of the same dimensions, was built with the hope of having Uncle Sam lease it for the postoffice; but as yet no arrangement has been made.

On entering the bank thru the massive copper doorway at the corner one first passes before the private apartment of the cashier. Here Mr. Duncan has his desk and just at the rear a door opens into his private consulting room. Next the customer comes before the teller's window, where Mr. Ralston Allison, assistant cashier, and Mr. R. G. Archibald, teller, will politely relieve you your surplus cash or will quickly pass out any amount of yellow metal for which you are able to write.

At the south end of the customers' lobby is a door opening into a sort of hallway from which one enters the avatory, directors' room, patron's booth and the outer vault. The directors' room, 12x18 feet, is in the south end of the building and has a massive table, chairs, etc.

The most interesting part of a bank is the vault and the safety apparatus with its intricate mechanism. In this instance they have one of the finest equipments to be found anywhere. The walls of the vault are solid cement with steel linings and are so thick and hard that it required two days for a man to drill several holes for electric wires. There is also a sheet lead lining to act as an electric conductor. The safe is a beauty. It is made of York Manganese steel and—excepting the door—is one solid piece, weighing three or four tons. The door is one piece of steel three inches thick and is so closely fitted that a thin piece of tissue paper could not be inserted when closed. On the inside of the door is a triple time lock. The vault door is fitted with a double time lock. The whole vault is connected with a large gong on the outside of the building which is automatically set ringing if anybody tampers with the vault, and which can also be rung by any one of the officers of the bank from any part of the building. In case of a hold up, an alarm can be given on the street by one of the officers while his hands are up and he is behaving himself according to orders, or he may be locked in the vault. This fine system, furnishing such absolute protection, was installed by the Safe, Vault and Protection Co., of Los Angeles.

A great convenience to patrons is the safety deposit boxes, over 100 in number. There is also another vault in the basement where records, etc., are kept. Much more might be said about the equipment of the building, including the heating system, the electric fixtures and other furnishings.

Lime Lime

Bean Spray Pump Co. have Roach Harbor and Acme Lime by car load or in any quantity desired.

Blossoming Beauty of Orchards Begins

A trip over Peninsular Electric will show you the valley in the fresh glory of springtide. Cars now running full service, with exception of Congress Springs Branch, which will open for regular service Saturday, March 18th. Congress Springs Park in good condition for picnics. Round-trip excursion tickets sold on Sundays and legal holidays at our offices, San Jose, Campbell, Los Gatos, Saratoga, Los Altos, Mayfield, Palo Alto. Peninsular Railway Company.

Water Company Sustained Heavy Loss

The Campbell Water Co. has certainly been a heavy loser by the flood. Their 150-foot well had a pit 6x10 and 90 feet deep, which caved in, covered up several thousand dollars worth of pumping machinery and also dropped the heavy cement foundation and engine in on top of the debris. A force of men are at work lifting out the cement and timbers, etc., and they have not yet been able to determine just how much damage has been done.

The A. Van der Naillen School

Established 1884. Occupying their own building, workshop and laboratories. Open all year. Great demand for students in all lines. New students should enroll at once. Address: 614 E. and Telegraph Ave., Oakland, Cal.

Local and Personal

Indian Runner Duck Eggs for hatching. 50 cts. per doz. Tel., Red 85.

The Christian Endeavor Society will hold their monthly social at the church tonight.

The W. C. T. U. will meet with Mrs. Farley on Wednesday, March 22d, at 2:30 o'clock.

Only a few Girl Graduate books left at the Press office. No more will be made up this year.

The safety deposit boxes of the Bank arrived this week and are now in readiness for patrons.

Mrs. L. C. Dick and baby David spent several days of this week with her parents at Los Gatos.

LOST at the break in the levy last Sunday, a gold bracelet. Finder return to Press office and receive reward.

Judge Scott returned Sunday evening from Wyoming. He expects to remain some time again with his family here.

A fine line of post cards for water color decoration is now being made up and for sale at the Press office. With or without mottoes.

Miss Harriet Clark left Tuesday for Oakland, called by the death of a near friend, Mrs. Hilton. The funeral services were held yesterday.

Mrs. Denhigh of Berkeley, recently out of the hospital, is a guest of her mother and sister, at the home of the latter, Mrs. S. G. Nelson.

Miss I. M. Coates has moved back to Campbell to reside. She is occupying her house on Central avenue, recently vacated by Frank McKee.

Bert K. Kerr, Optometrist, has removed to 36 S. Second St., San Jose. He makes a specialty of fitting glasses and carries in stock all the newest and best in his line.

Geo. H. Niver will deliver a lecture at the Odd Fellow hall Saturday night, March 18th, on what the Good Templar Lodge stands for and what they are doing. All are invited.

See J. H. Neff for your nursery stock. All kinds of fruit and ornamental trees. Palms and roses, potted plants, etc. Sales yard on the corner of Campbell and Harrison avenues.

"Hay there, Mr. Merrill! Have you any more of that wet hay?" "No sir. That hay has all sold out several days ago; but I now have a car of fancy red oat hay on the track, and you can save money by buying it from the car."

The weather promises well for the aviation meet Saturday and Sunday at the San Jose Driving Park, 2 to 5 p. m. There will be some spectacular flights by Eugene Ely and C. F. Willard, the world-renowned aviators. There will also be automobile, motorcycle and horseracing.

Everything for Spraying
At the Bean Spray Pump Co., West Julian Street, San Jose.

Will Debate With Palo Alto Team

Question, "Resolved That the Issuing of Injunctions by Federal Courts in Labor Disputes Should Be Forbidden"

A meeting of the S. C. V. Debating League was held at San Jose High school on Saturday, March 11th. Six schools were represented. It was decided that Campbell will debate Palo Alto High school on April 8th. There will be two debates, one at Campbell and the other at Palo Alto; both debates occurring on the same evening on the same question. Each school has an affirmative team, which stays at home to debate, and a negative team which goes to the town of the contesting school. The question at issue is "Resolved That the Issuing of Injunctions by Federal Courts in Labor Disputes Should Be Forbidden by Congress." Those who will debate are: Negative team, Miss Muriel Palmer and Russel F. Downing; affirmative team, Miss Esther Smith and Geo. Beaver. Those of the town who are on the permanent Board of Judges of the League are the Reverends J. F. Wilson and Geo. E. Atkinson.

The boys are now training for the I. A. U. track meet to be held at the University of the Pacific on the 15th of April. The interclass meet will occur soon.

Results of the Flood Water

Damage to Different Property Owners in the Town of Campbell Will Run Up into the thousands

Geo. E. Hyde & Co. had a considerable amount of fruit where it might have been damaged had they not put a force of men at work removing the goods. No particular damage was done.

The hay barn of E. C. Merrill was flooded with water and a great amount of hay was damaged so that it demanded immediate sale. Mr. Merrill immediately advertised a bargain sale and in a short time had sold all his damaged stock.

The old bank building, now owned and soon to be occupied by the Campbell Realty Co., settled somewhat at the northwest corner.

The basement of the new bank building filled with water and a pump and engine were put to work but did not succeed in draining the building until the water had run off from the street.

The storerooms of E. R. Hession and O'Kida Bros. were filled with water to the depth of three inches. In the latter place there was a great quantity of goods on the floor and the damage amounted to several hundred dollars.

Both blacksmith shops were flooded and it was nearly a week before Mr. Lloyd could get in to resume work again.

Considerable damage was done in the basement of the Methodist church. The fine piano was found to be six or eight inches in water and was taken out and carried up stairs. A good many hymn-books, Bibles and library books were ruined by the water, and damage done in various ways.

The north wall of the basement under the C. H. Whitman tinshop caved in and did considerable damage. Mr. Whitman is now putting in a very substantial wall.

F. O. Putnam was one of the heaviest losers. He had a large quantity of goods stored in his basement at the house preparatory to opening his new store. Much of the goods, such as fine stationery, etc., was completely ruined, but other articles in the dry goods line required only wishing to restore them to their original condition.

Bean Spray Pump Co.

Can supply all your wants in power or hand spray pumps, nozzles and hose.

CHURCH NOTES

Special Program at the Congregational Sunday School March 19, 1911, 12:15 p. m.

The Sunday School exercises at the Congregational church next Sunday will be of a special nature. It is the regular Quarterly Temperance Lesson, but a special Lincoln Legion Service will take the place of the regular lesson period. This is to emphasize and commemorate the signing of a pledge by young Breckenridge—a lad of ten years of age—in 1846. The pledge is one that Abraham Lincoln wrote himself and induced the lad to sign. One feature of the exercises will be the unveiling of the picture of Abraham Lincoln and Cleophas Breckenridge in 1846 as the lad signs the pledge. This painting will be unveiled by a lad the same age as young Breckenridge at that time. Another feature will be the reading of a personal letter to the Sunday School from President Taft. The Primary Department will take part with a song with a whistling chorus.

All interested are most cordially invited to enjoy this service with us. The other services of the day as usual.

GEO. E. ATKINSON, Pastor.

Methodist Church

The choir of the Methodist church will give a Sacred concert on Sunday evening, March 26th. This choir is doing some very creditable work, rendering some selections of a high order.

As a special treat, on this occasion several soloists from San Jose have consented to assist, likewise a competent pipe organist, who will render several selections on the new organ so recently installed, bringing out more clearly some of its finer qualities.

A full program will appear in next week's Press.

Alcohol at the Methodist Sunday School Superintendent Will E. Wright has a bevy of pretty girls putting up decorations for the special program to be given next Sunday morning. An object lesson with alcohol will be a leading feature. Mr. and Mrs. J. C. Gordon will sing, by special request. Flags of the various nations will be waving. Bring your friends and come early.

Primary Entertainment

The primary department of the Sunday school, under the leadership of Miss Mary Clark, will give a concert and entertainment on Friday evening, March 24. Great pains are being taken to make the program attractive.

One of the important things installed in our new bank building for the use and convenience of our patrons will be a system of modern safe deposit boxes.

Easy of access, strictly private, protected by a strong reinforced burglar proof, fire proof vault, lined by the most modern electrical protection system to be had.

It is our desire to have our patrons to avail themselves of this opportunity of procuring a strong box accessible and convenient at all times.

The rental will be reasonable and within the reach of all. Call and let us place your name on our list.

SUMMONS

IN THE SUPERIOR COURT OF THE State of California, in and for the County of Santa Clara.

George E. Tolman, plaintiff, vs. Charlotte M. Tolman, defendant.

Action brought in the Superior Court of the State of California in and for the County of Santa Clara, and the complaint filed in the office of the Clerk of said County of Santa Clara.

The People of the State of California send greeting to Charlotte M. Tolman, defendant.

You are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this summons, if served within this county, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for all money or damages demanded in the complaint as arising upon contract, or will apply to the court for any other relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 15th day of December, A. D. 1910.

HENRY A. HESTER, Clerk
By J. M. Shilge, Deputy Clerk

ORDER TO SHOW CAUSE

In the Superior Court of the State of California, in and for the County of Santa Clara.

In the matter of the estates and guardianship of Samuel J. Luther and George L. Luther, minors.

J. Fred Smith, as guardian of the estates of Samuel J. Luther and George L. Luther, minors, having filed herein his duly verified petition praying for an Order of this Court authorizing and directing him to borrow the sum of \$250.00 for each of said minors, or such lesser sum as the Court may deem necessary, wherewith to pay for the maintenance, support and education of said minors, and for the purpose of securing the payment of such loan to mortgage to the lender of such money that certain real property of said estates, situated in the Town of Campbell, County of Santa Clara, State of California, described as follows, to-wit:

Lot Number 8 of Campbell's Western Addition to the Town of Campbell as shown and designated upon a certain map or plat of said tract, recorded in the office of the County Recorder of Santa Clara County, California, in Book "H" of Maps, page 69, on May 18th, 1894, Records of said County and State.

It is Ordered that all persons interested in said estates, and the next of kin of said minors, appear before this Court at its courtroom, Department Two, in the County Court House, in the City of San Jose, in said County of Santa Clara, on Friday, the 31st day of March, 1911, at 10 o'clock A. M., and then and there show cause why the prayer of said petition should not be granted and the real property above described mortgaged to secure a loan to said estates of \$250.00 each, or such lesser amount as the Court may deem meet, wherewith to pay for the support, maintenance and education of said minors.

For all further particulars of said petition you are hereby referred to the petition now on file herein. Dated, February 21, 1911.

P. F. GOSBEY, Judge.

COAST HAPS AND MISHAPS OF THE WEEK

Recent Occurrences Along the
Pacific Slope Related
in Brief Items.

Paragraphs Selected With a View
to Giving Busy Readers the
News in a Nutshell.

Redwood City.—The trustees of the Belmont grammar school are planning for a bond issue of \$20,000 for the purchase of a new school site and the erection of a building.

Olympia, Wash.—The Senate passed the eight-hour bill for women, only six voting against it. The bill applies to workers in hotels, restaurants and mercantile and mechanical establishments.

Oakland.—Sedley Garfield Skinner, twice tried on a charge preferred by a young girl, the jury disagreeing each time, was dismissed on motion of the District Attorney. Skinner is a moving picture operator and married.

Portland.—Citizens of Portland cabled \$5000 to Hongkong to be used in purchasing food for starving Chinese. As fast as collected in \$5000 amounts more money will be wired. It is expected that at least \$20,000 will be sent from Portland during the week.

San Francisco.—Theodore V. Halsey's case was on the calendar in Judge Dunne's court to be set for trial on a third indictment last week, but was continued until March 16th. Halsey has been acquitted on two indictments charging him with bribery of Supervisors in behalf of the Pacific States Telephone company.

Alameda.—Jacob Neuman, an Alameda butcher, was sentenced to six months in the county jail after having pleaded guilty to charges of cruelty to his minor children. Neuman's sentence will not be put into execution as long as he refrains from drinking and contributes regularly to the support of his children.

San Francisco.—The secret service agents are on the trail of bogus green-back money makers and claim that their capture is only a matter of a short time. The counterfeiters were first discovered at work in the East and have just arrived here. They have distributed several hundred dollars of the bad money already.

Los Angeles.—The Standard Oil Company did not come in for much sympathy at the hands of a Superior Court jury, which returned a verdict against the company for \$20,000 damages in favor of nine-year-old Edwin Petteyes, who was thrown from a bicycle and seriously injured, it was asserted, as the result of the carelessness of a driver of an oil wagon.

Marysville.—E. J. Watson will be placed on trial April 18th charged with the murder of James F. Bury February 19th in an apartment house here. Watson and Mrs. Bury were in the room occupied by Mrs. Bury when Bury attempted to break in the door. Watson said that he was forced to shoot in self-defense. Believing Bury armed Watson shot through the door.

Truckee.—J. L. McIver, who carries the mail between this city and Lake Tahoe on snowshoes, had a close call in a snowslide. He had stopped near the summit of the mountains to eat his lunch, when the snow began moving. He knew the best thing he could do was to remain quiet. McIver shot down 1000 feet with the avalanche at lightning speed. He was buried but managed to dig himself out.

San Rafael.—The first official cognizance of the alleged shortage in the Marin county tax accounts was taken when the Board of Supervisors, after examining the evidence and engaging in a spirited discussion of the Polls delinquency, voted to refer the matter to District Attorney Thomas P. Boyd, with instructions to make a thorough investigation and report his findings at the next meeting of the Board.

Santa Barbara.—The storm is past after damaging property in this city and county to an extent which may exceed \$500,000. Many bridges have been swept away by the flooded streams, and almost all those left standing are unsafe. The losses to Lompoc valley ranchers is very heavy. Los Alamos and Los Olivos were cut off from the outside world. It is expected that the overflow of Mission creek will cause many suits for damages against this municipality.

MEXICAN BATTLE A SUNDAY ATTRACTION FOR AMERICANS

Eight Hundred Federals and Rebels in
Spectacular Battle on Border.

Douglas, Ariz.—Within sight of the American border-guard slant Sunday, the Mexican Federal troops repulsed 500 rebels at Agua Prieta, Mexico. Eleven dead were left on the battlefield and as many Federals were wounded; the casualties of the insurgents are not known, as they took their injured with them in retreat.

When the first word of impending fight reached Douglas the town emptied itself. Afoot, on horses and in buggies, wagons and autos, crowds sought points of vantage every roof top and high window was filled and spyglasses brought premiums.

Autos streamed from all directions. Soon the entire country, from the American custom house to the eastern outskirts of the city, was a solid phalanx of sightseers.

The battle was spectacular. Many of the Americans rushed close to the battlefield while the firing was still at its height. After the smoke had cleared away it was Americans in automobiles who gave first aid to the wounded, hurrying them to Agua Prieta, where two American physicians were in readiness to assist the Mexican army surgeons. The great throng during the fighting yelled according to its sympathies as enthusiastically as if it were watching a ball game.

The Third United States Cavalry established a perfect patrol along the international line, preventing anyone from crossing from either side.

Scouring the Hills For Murderer.

San Rafael.—A stranger, to whom they had given food and shelter for the night, murdered John Lafranchi and his nephew, Augustine Albertoni, while they were milking the cows. He then fired two shots at Mrs. Lafranchi, inflicting flesh wounds in both of her legs above the knees, and then escaped to the hills. The wounded woman, in agony, went a half mile distance to her nearest neighbors and gave the alarm. The hills are now being scoured to unearth the fiend.

Cabin Tumbles Down Gorge.

Kennett.—A two-room cabin at the Uncle Sam mine, four miles west of Kennett, was blown from its underpinning during the wind and rain storm and rolled 100 feet down the mountain side. The cabin was occupied by two miners, Ed Brown and John Hansen. The cabin was demolished, but neither of the miners was killed, though both were badly hurt.

Throop Institute Fight Withdrawn.

Sacramento.—Throop Polytechnic Institute ended its campaign to become a State institution to be known as the California Institute of Technology. In a telegram to Senator Lee Gates, author of the so-called Throop bill, President A. B. Sherer of Throop asks that the proposition be withdrawn absolutely.

Verdict Adverse to Claimant.

Los Angeles.—The Jury in the case of Beatrice Anita Baldwin Turnbull, the 17-year-old Boston girl seeking a one-sixth share of the \$11,000,000 estate of "Lucky" Baldwin, under instruction from the court, returned a verdict adverse to the claimant.

Furtune for Trimming Corns.

St. Louis.—Mrs. Christine E. Spellman, who trimmed the corns and bunions of Daniel Small, a city fireman who boarded at her home the last eight years of his life, by a jury's verdict in the Circuit here will receive \$2310 for such services.

Cholera in Honolulu.

Honolulu.—The twenty-fifth case of cholera, the first outside of quarantine since Sunday last, has been reported. The total of deaths to date is 21. Those afflicted have been 24 Hawaiians and one Portuguese baby.

Three Killed and Six Injured.

Lexington, Ky.—Three children and a man were killed and six other persons were injured when a boiler at Howards creek, Breathitt county, exploded. The children were playing about the distillery.

Soldiers Have Heavy Supplies.

San Antonio, Tex.—The thousands of United States troops rushing to Fort Sam Houston are to remain here two months or more, it would seem, from the great quantities of supplies bought for their use.

Used Mails to Defraud.

Seattle, Wash.—Arguments in the case of Clarence D. Hillman, millionaire promoter, on trial and charged with using the mails to defraud, were continued in the United States District Court.

The Griffin Eight-Hour Bill is Approved With Others

Sacramento.—The Griffin bill, limiting the hours of employment of women was passed by the Senate after more than three hours of speechmaking on numerous amendments, all of which were voted down. The bill has now gone through both houses. It provides that no female shall be employed in any manufacturing establishment, laundry, hotel or restaurant, or telephone or telegraph establishment or office, or by any express or transportation company in this State more than eight hours in any one day, or more than 48 hours in one week.

This restriction does not apply to the harvesting, curing, canning or drying of any variety of perishable fruit or vegetable. The act directs that in all establishments where females are employed suitable seats shall be provided for them, which they may use when not engaged in active duty.

Rev. Frank K. Baker, chaplain of the Assembly, exchanged places with Senate Chaplain Rev. Father H. H. Wyman of San Francisco, and in his prayer practically urged the passage of the bill. As it was set as a special order for that day the women who were lobbying for it were credited with arranging the transposition of chaplains. Senator Wright, in criticizing this lobbying, in discussion of the measure, classed chaplain Baker among the lobbyists.

Senators Curtin, Wright, Bell, Gates, Hewitt, Holohan, Juillard, Roseberry,

Tyrell, Cartwright, Estudillo and Avery, after vainly supporting the various amendments, all voted for the bill. Only five Senators—Birdsall, Boynton, Hurd, Strobridge and Thompson—were against it on final roll call. Thirty-four were recorded in favor of it, Wolfe being absent through illness.

The Governor sent a long veto message to the Senate, stating his disapproval of Senator Cassidy's sanitary bakeshop bill, which had passed both houses of the Legislature. Reasons for the veto stated that many hotels had protested against the terms of the bill and that the State Board of Health, rather than the Labor Commission, should have supervision over the bakeries.

Governor Johnson signed the bill introduced by Senator Wolfe of San Francisco whereby \$13,000 is appropriated for making certain alterations and for installing and equipping a gymnasium in the San Francisco Normal School.

With every member voting, the Assembly adopted Senator Gates' resolution to submit to the people a constitutional amendment making possible the recall of all State officials.

In spite of Senator Boynton's warning against an extreme of reform legislation the Senate, by a vote of 21 to 8, voted to change from a misdemeanor to a felony the selling of liquors without a license. The bill has already passed the Assembly.

Uncle Sam Maneuvers With An Eye on His Neighbors

Washington.—An army of approximately 200,000 men, representing the most extensive movement of troops in this country in time of peace, has been mobilized along the Mexican border.

Marines on the battleships in southern waters and those stationed at Philadelphia are now at Texas rendezvous points.

Armored cruisers and battleships have been sent to the Lower California and Mexican coasts. More than one-fourth of the army of the United States, of all arms of the service, have been ordered to the Mexican border; four armored cruisers, comprising the fifth division of the Atlantic fleet, have been ordered from northern waters to the naval station at Guantanamo, Cuba; most of the Pacific fleet is on its way to assemble at San Pedro and San Diego, Cal., and 2000 marines are to make the Guantanamo station their temporary headquarters.

It was officially announced at the White House and at the War and Navy departments that the purpose of this great mobilization, unprecedented save in war times, is the training of officers and men under service conditions and practice in co-operation between the land and naval forces. Other pains were taken by all officially concerned in the matter to give this color to the sudden activities; but these statements were accepted with increasing reserve. The real significance of these activities is thought to relate very directly to conditions in Mexico and to the growing belief that the situation there is by no means as satisfactory as the Mexican Government would have it believed. There are persistent reports that the physical condition of President Diaz has lately become such as to alarm his adherents, and that momentous developments are to be prepared for.

A telegram from Taft to President Diaz through the Department of Foreign Relations is as follows: "I have the honor to advise your excellency that I am in receipt of instructions from my Government directing me to inform his excellency, President Diaz, through the medium of your excellency that the President of the United States wishes to express the hope that no misapprehension will result from unfounded and sensational newspaper conjectures as to the military maneuvers about to take place in Texas and elsewhere and to give to President Diaz assurances that the maneuvers have no significance that should cause concern to the friendly neighbors of the United States to the south."

To the foregoing Diaz replied through Minister Creel and the American Embassy, acknowledging receipt and expressing gratitude "for the courtesy of explaining in such explicit terms the situation."

Millions of Dollars Damage by Rain and Floods

San Francisco.—The loss to the State by the recent heavy rains and floods can be estimated in the millions. At Santa Barbara over 1000 acres of rich bottom land has been washed into the sea by the raging Santa Maria river, in the northern part of Santa Barbara county. The historic Santa Ynez Mission near Santa Barbara crumbled away under the force of the storm. Father Buckley, the venerable priest at the mission, refused to leave for a place of safety and remained in the little chapel and living apartment, which were left standing. Railroad traffic has been demoralized and many bridges destroyed.

Los Angeles river menaced the bot-

tom lands and the loss was \$500,000.

The bridge across Niles Canyon creek was washed away.

The Colusa levee broke and water surrounded the houses.

The creek overflowed orchards around San Jose.

Horses died on the ranges where the snow is deep.

Bridges and the station house was destroyed in Arroya Grande and two were killed in the valley.

Coalinga and the oil fields were short of dairy products.

A span of the county bridge was washed out at Oxnard.

Ventura river carried out a bridge, and the streets of Fresno were flooded.

Gold Fields of Alaska Attract Miners and Prospectors

Seattle, Wash.—The Spring stampede to Alaska recalls the rush to the Klondike in 1897. Miners and prospectors desire to get into the interior before the snow trails are made impassable by the spring sun. Among the passengers that left on the last boat were 100 miners from Goldfield, Nev., several parties of big game hunters, an organized body of prospectors from Salt Lake City, and a large number of cannery employees. Many of the goldseekers will go to Fairbanks via Cordova, Chitna and the trail, and get into the Iditarod as soon

as possible while the trail is still open.

In the Copper River country the trails are already deteriorating, and all signs point to an early spring. The discovery of gold in quartz in various parts of Alaska last year will attract miners who have not been lured by tales of rich diggings in the Iditarod. The shipment of freight to Alaska is also so heavy that old steamers tied up in the harbors of Puget Sound and almost forgotten have been brought out and put into service. The great highway of Alaska, the Yukon river, will not be open until the latter part of May.

MOROSE BROTHER TRIES TO WIPE OUT WHOLE FAMILY

Succeeds in Killing His Two Sisters but
is Overpowered by Brother.

Healdsburg, Cal.—Fred [Schwarze, a wealthy farmer, shot and killed his two grown sisters with a shotgun at their home near this place. His brother Charles was at the barn, and hearing the shots, rushed to the house in time to catch and overpower the madman, who was again loading the gun to shoot him.

The three Schwarze brothers, Fred, Charles and Frank, and the two sisters, Lena and Louisa, had lived on the ranch together since the death of their father a year ago, Fred managing the ranch. According to the brother, Fred has been morose and strange for the last three months.

From the position of the bodies of the two women as they were found, Lena was bending over the sink washing dishes at the time her brother entered the kitchen and fired at her, the charge striking her in the back of the head, carrying away the upper part of the skull. Louise, the other sister, evidently then ran for the outer door. She was killed in identically the same way as Lena, her body falling across the doorway.

The Schwarzes were wealthy, the estate consisting of San Francisco realty in addition to the valuable 200-acre ranch here.

Two Crushed to Death by Wagon.

Sacramento.—Crushed between an overturned freight wagon and a fence post, the bodies of T. M. Randall and his son, Edward Randall, were found about a mile from Mountain House, in Sierra county. The right wheels of the wagon had struck a deep rut in the road and overturned the vehicle. The men had evidently jumped to escape, but were caught between the wagon and the heavy post and crushed to death. The bodies were standing upright, the arms of the old man grasping the post in a death hug, while he was held in the embrace of his son, who had evidently interposed his body in an effort to shield his father from injury.

Goes Back to Finish Term.

Lexington, Ky.—After being at liberty for 16 years, T. B. Whitson, who in 1895 escaped from the State prison at Raleigh, N. C., where he was serving a sentence of 30 years for murder, was arrested here and will be taken back to North Carolina to serve out his term. Residing in Letcher county, Kentucky, as "Samuel Jones," he has amassed a comfortable fortune.

Fresno Police Guard Levees.

Fresno.—Efforts made on the part of residents within and without the city to prevent the flood waters from Dry creek from spreading over their property resulted in a situation so serious that it was necessary to call out a squad of police to patrol dikes that had been thrown up and prevent any cutting.

Family Marooned 48 Hours.

Long Beach.—After having been marooned 48 hours, William George and his wife and two children were rescued from their home near Los Cerritos trestle over the Los Angeles river. The rescue was effected by police and the life saving crew from here.

Petaluma's New Depot.

Petaluma.—Petaluma is to have a new depot building, and the citizens are jubilant over the fact that the Northwestern Pacific, after years of temporizing, has decided upon the improvement. The old building will be used as a freight house.

Ohio Town Suffers Loss.

Cincinnati.—Fire destroyed the five-story building occupied by the Murdock Manufacturing Company, makers and dealers in plumbers' supplies, entailing a loss estimated at \$60,000, partially covered by insurance.

Cashier and Money Gone.

Helena, Mont.—The Merchants' and Farmers' Bank of Culbertson, Mont., has closed its doors. The Sheriff is searching for V. H. Bostwick, cashier, who is reported as missing with a shortage of \$15,000.

Navel Recruits Wanted.

Des Moines, Iowa.—Chief Master at Arms G. Busch, in charge of the Des Moines naval recruiting station, received orders to make all possible offers to induce men to recruit for naval service.

Attempt to Assault.

Redwood City.—The trial of J. Cole of San Jose for the alleged attempt at assault on Mrs. Mary Bettencourt several months ago, will be held here before Judge J. W. B. Bettencourt lives at

The Family Physician

The best medicines in the world cannot take the place of the family physician. Consult him early when taken ill. If the trouble is with your throat, bronchial tubes, or lungs, ask him about taking Ayer's Cherry Pectoral. Then take it or not, as he says.

We publish our formulae
We banish alcohol
from our medicines
We urge you to
consult your
doctor.

Billious attacks, sick-headaches, indigestion, constipation, dizzy spells—these are some of the results of an inactive liver. Ask your doctor if he endorses Ayer's Pills in these cases. The dose is small, one pill at bedtime.

Made by the J. C. Ayer Co., Lowell, Mass.

The Glorious Insipidity of Tea.
Tea! thou soft, thou sober, sage and venerable liquid. * * * thou female tongue-running, smile-smoothing, heart opening, wink-tipping cordial, to whose glorious insipidity I owe the happiest moments of my life, let me fall prostrate.—Colley Cibber.

A merchant advertises because he wants your trade. He will make it worth your while to patronize him.

Fresh Air and Milk.
If a child is narrow-chested he should live in the open air as much as possible. Light dumbbells should be used for exercise and he should be given a generous milk diet.

If you don't use Golden Gate Compressed Yeast you have the sympathy of every woman who does.

Ribbon Counter Tact.
She (after the clerk had shown her nearly all the ribbons)—I was just looking for a friend. Clerk—Well, madam, there's one more roll up there; maybe she's in that.

Only One "BROMO QUININE"
That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 25c.

Yes, That's What We Want.
W. L. Sanders, a Denver machinist, has invented a contrivance that will feed a press. If he could invent a machine that would feed a family he'd win everlasting fame.—Denver Times.

All Must Share Burdens.
The whole community must bear with common resources and sacrifices the common burdens, not the least being the burdens of the most poor and most weak.

INFLAM- MATION AND PAIN

Cured by Lydia E. Pinkham's
Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women."

—Mrs. WM. SEALS 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

You can't sow thistles and read figs. If you plant Perry's Seeds you grow exactly what you expect and in a profusion and perfection never excelled.

Fifty years of study and experience make the reliable. Perry's Seeds are everywhere. 1911 Seed free on request.

Hood's Sarsaparilla

Is the most effective medicine for the complete purification of the blood and the complete renovation of the whole system. Take it this spring.

Get it today in usual liquid form or tablets called Sarsatabs. 100 Doses \$1.

W. B. SUMNER & CO.

220-226 Townsend St., San Francisco

HIGHEST PRICES

CASH paid for Hides, Pelts, Tallow, Wool, Furs and Skins

SAVE \$75

After 40 years' experience, we find that traveling salesmen or small stores add \$75 to the cost of every piano; therefore, we will pay your fare from any part of the State and return if you trade with us. Our prices are lower than any other house on this Coast.

As a proof of values we submit herewith a list of some of our new and slightly used instruments, all of which are guaranteed for 20 years. If you are not coming to the city, we will place an instrument in your house, 30 days free trial. Our terms are nothing down and \$1 per week, or as much more as you want to pay.

Chickering \$100, Fletcher \$100, Decker \$115, Weber \$120, Steinway \$125, Emerson \$135, Knabe \$141, J. & C. Fisher \$153, Antisell \$175, Emerson \$190, Steck \$214, Everett \$225, Haines \$230, Heine \$254, Mason & Hamlin \$233, Fischer \$250, Werner \$254.

MEDICINE

The Art of Economy.

The old-time virtue of economy should be one of the earliest lessons learned by the embryo woman. I have always felt profoundly grateful to my mother for teaching me, at an early age, the value of money; that money represented somebody's toil and should be carefully used. I recall my mother's saying, "Papa works hard and is often in great danger while earning this money, for mamma and his little daughter, and we must be careful how we spend it." Economy is by no means a lost art, but are we not a little bit ashamed of owing to its practice? Has not the pride in economy that characterized the aristocratic gentlemen of olden times become a thing of the past? Our grandmothers owned and were fond of fine nappery, sterling tableware and solid, substantial furniture, and took better care of their pretty things than we of today. Exquisite darning and the careful mending of all household linen and garments were highly commended, while waste in cellar storeroom was considered sinful.—J. R. B.

Old Postal Rates.

The high postal rates that prevailed in the earliest years of the last century made the transmission of a letter or parcel a matter of serious moment.

"A packet weighing 32 ounces was once sent from Deal to London," writes Mrs. Eleanor Smyth in her life of Sir Rowland Hill. The postage was over £6, being four times as much as the charge for an inside place by the coach. Again, a parcel of official papers, small enough to slip inside an ordinary pocket, was sent from Dublin to another Irish town addressed to Sir John Burgoyne. By mistake it was charged as a letter instead of as a parcel and cost £14. For that amount the whole mail coach plying between the two towns with places for seven passengers and their luggage might have been hired."

Vegetarian Boots and Shoes.

An enterprising manufacturer has discovered a process whereby a passable imitation of leather may be manufactured from a vegetable product. The novelty owes its introduction to London vegetarians, who shuddered at the thought of the number of animals that were killed annually to keep humanity in boots. The imitation leather is being used for the manufacture of boots, shoes, Bible covers and a hundred other articles usually found in the art leather department.

Specialized Farming.

Miss Jessie Nicholson inherited a farm of 225 acres in New Jersey, which her father had farmed in the old way. When she took it she realized that the new way to do things is to specialize, so she began to do this on the farm. She raises Canada field peas, her own hay and makes a silo, sells chickens and milk, and that is all. There are 100 cows and she puts away \$3,000 each year.

Superstitious Mothers.

In the far north skin cradles are commonly used. As a rule these are very crude and often unsightly in construction. They are very rare, even in great museums and ethnologic collections, because of the superstitions and prejudices of the mothers. Among the Thinkits of Alaska, no matter how large the family may be, the same cradle is never used for more than one child.

A Perspiration Cure.

If you suffer from perspiration try mixing an ounce of common baking powder and the same amount of unscented talcum powder. Keep in airtight bottle and use freely after washing. A little ammonia in the bathing water is excellent. Then dust with the powder mixture.

Doing Well.

"How's your boy getting along in the big city?" asked a neighbor. "Fine," replied the farmer. "He gets his name in the papers almost every day now. He's one of them joy riders you read so much about."

Government Type.

The type set in the government printing office last year would reach one and one-fifth times around the world. It is believed that something like a quarter of a mile of the printed lines was read.

Propriety.

Mother (visiting son at preparatory school)—"Well, my darling!" Son—"I say, mother, don't look so ghastly pleased before all these fellows!"—Punch.

A Momentous Question.

Here Mr. Dowling rose and, with a most impressive manner, asked the witness where he lived.—From Sergeant Ballantine's Experiences.

The Straw Vote.

Another good thing about politics is that a man can always find a straw vote to indicate exactly what he wants indicated.

As It Goes.

We all have our faults, but the other fellow's got to have a lot of extra fine good qualities before we'll stand for his.

Revealing Character.

There is nothing in which people betray their character more than in what they find to laugh at.—Goethe.

keeps in center of road.

"The wise man treats his friends well," says the Philosopher of "but not often."

Uncomplimentary.

The following entry appears in the "Visitors' Book" of a hotel in Germany: "The living here is good, plain and substantial. So is the waitress."

COUGH MEDICINES MAKE DOPE FIENDS

Binz-Bronchi-Lyptus contains no dope. It will stop any cough, absolutely, by removing the cause. All druggists 25c, 50c, \$1.00, or send 5c for sample and booklet. EDW. G. BINZ, Pharmacist, 311 W. 32nd Street, Los Angeles.

Sociable.

"Anything to keep the conversation," remarked the aviator, as he rigged a wireless telephone to his aeroplane.—Cornell Widow.

Better ask for Golden Gate Compressed Yeast first than wish you had afterward.

Did Not Strike Responsive Chord.

The man who sat on the woodpile and told funny stories, expecting the wood would split, evidently did not strike a "responsive chord."

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe.

Reason a Help in Trouble.

We ought to call in reason, like a good physician, as a help in misfortune.—Epictetus.

Piles Cured in 6 to 14 Days.

Your druggist will refund money if PAZO OINTMENT fails to cure any case of itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

We Have Noticed That.

"Between what you ought to say and what you do say when you are talking to a pretty woman there is often a great gulf fixed."—"The Girl With the Red Hair," by Max Pemberton.

You will sneeze; perhaps feel chilly. You think you are catching cold. Don't wait until you know it. Take a dose of Hamlin's Wizard Oil and you just can't catch cold.

Giving Children Their Rights.

In this century we are not getting rid of obvious wrongs, but are giving the children obvious rights.

The women who make the best bread invariably use Golden Gate Compressed Yeast.

A Long Wait.

A party of East Indian natives were found sitting in a row on the platform of a station after the train had left, and being asked the reason, one of the men replied: "Oh, sahib, we are waiting till the tickets are cheaper."—London Globe.

Paris is Tea Mad.

Paris has gone tea mad. English customs cross the channel with amazing alacrity, and now all that is said or done, all that happens in Paris, between 3 and 7 a. m., is said, is done or happens around a tea pot.—Figaro, Paris.

Handy Shoe Horn.

A shoe horn that folds together longitudinally, combined with a buttonhook hinged to close inside it when not in use, has been patented by a Connecticut man to economize space.

"NO ONE IS STRONGER THAN HIS STOMACH."

—Hostetter

When You Are Sickly

and run down and subjected to spells of Stomach trouble and Biliousness you cannot take a better medicine than Hostetter's Stomach Bitters. It removes the cause by toning the entire digestive system. Try it and see.

BUT INSIST ON

Hostetter's

Stomach Bitters

Turkish Parliamentary Etiquette.

The etiquette of the members of the Turkish chamber almost vies with the politeness of the young Chinaman to his prospective father-in-law, so amusingly told by Goldsmith. At the commencement of the new era, either by accident or design, a custom arose that when any member of the house entered all those who were present rose from their seats and made their salaam to the newcomers. Even if a member was addressing the house a breach in the speech was considered preferable to a breach of courtesy, consequently the orator paused, and the civilities complied with, proceedings resumed. To put matters bluntly these amenities proved themselves a nuisance, so Mukhtar Pasha took the matter in hand, with the result that the house agreed that these courtesies should only be observed before the house was in session. As the members drop in now all in their seats rise and exchange compliments with the late comers, but as soon as the business begins the belated one, metaphorically, like Longfellow's Arab, "tolds his tent and silently steals away" into his seat.

RHEUMATISM

Munyon's Rheumatism Remedy relieves pains in the legs, arms, back, stiff or swollen joints. Contains no morphine, opium, cocaine or drugs toadden the pain. It neutralizes the acid and drives out all rheumatic poisons from the system. Write Prof. Munyon, R3d and Jefferson Sts., Phila., Pa., for medical advice, absolutely free.

Flats With a Purpose.

"I hear they are building flats now that are provided with disappearing furniture." "I suppose that is for the purpose of providing more room." "That is understood to be the reason, but it will come in handy to have such a flat when the tax assessor makes his appearance."—Chicago Record-Herald.

EVERY WOMAN WILL BE INTERESTED.

There has recently been discovered an aromatic pleasant herb cure for woman's ills, called Mother Gray's AUSTRALIAN LEAF. It is the only certain remedy for female Weaknesses and Backache, Kidney, Bladder and Urinary troubles. At all Druggists or by mail 30 cents. Sample FREE. Address the Mother Gray Co., Le Roy, N. Y.

Helps to Happiness.

The fireless cooker, the voiceless hog, the tireless hired man, the crackless windmill, the houseless poultry house and the rutless road would add much to the enjoyment of farm life.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Organization a Necessity.

Movements which spring up suddenly are of no use unless they have previously been got into shape by proper organization.

If your grocer doesn't sell Golden Gate Compressed Yeast, we will mail it direct.

Subscribe for it to come regularly; two for five cents, monthly credit. Write for free cook book, Golden Gate Compressed Yeast Co., 26 Mint ave., San Francisco.

Juvenile Entertainment to Date.

The small daughter of a New York millionaire who dwells in Westchester county asked her friends to a luncheon to celebrate the "closed season for books." The table was round, and in the center stood a Dutch pine tree with a pond containing fish. On the branches of that tree hung miniature turkeys and sugar plums and fruit, and something from it was given to each little guest. And each turkey and sugar plum contained a dainty little gift in jewelry from the hostess.

Gets Comfort From License.

"Every time the automobile breaks down, I notice you examining your state license." "I do that for encouragement. The license says I'm competent to operate the machine."—Houston Chronicle.

Longevity in Birds.

Wild geese have been known to live to the age of 100, and the raven commonly lives 50 years. A record is said to be extant showing that a cockatoo once attained the ripe old age of 81 years.

Nearer the Ground.

Edwin, aged seven, noticed grandpa trying to stoop to pick up something which had fallen to the ground, suddenly said: "O, wait, grandpa, let me pick it up for you. I haven't so far to stoop."

Is Put to Harder Strain.

A scientist tells us that a woman's mind is apt to give away sooner than a man's. Constant changing naturally wears anything out.

What They're Not Doing.

When two women get their heads together in a parlor it's a safe bet that they're not discussing the weather.

Worth Trying.

"If a man can't depend on his friends, whom can he depend on?" "He might try himself for a change."

First Thing to Be Understood.

A new social order will be effected when we understand that life is more than a livelihood.

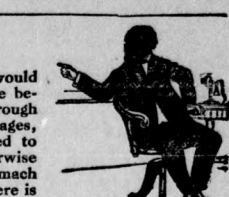

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent desire may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Are Americans Deteriorating?

Are Americans running down physically since so many of them have left the farms and the sea to gather in cities? We are moved to the inquiry because the secretary of war in his report for 1909 says that of 100,996 men examined for the regular army, 81,878 were rejected as lacking either mental, moral or physical qualifications. The physical lack was most in evidence; and, as the major percentage of the would-be recruits hailed from cities, where recruiting stations are handiest, the result of their physical tests would seem to bear directly on the matter of environment.

Iceland Gloves.

In so cold a climate the glove must be put off or on as rapidly and easily as possible so it is made without fingers, and in order that no time may be wasted in distinguishing between right and left all gloves have two thumbs. You simply thrust your hand into the first glove that comes and your thumb immediately finds its way. There are of course drawbacks in the matter of appearance, for the dangling idle thumb looks untidy.

A Splendid Motto.

It is not wholesome to lift the grave cloths from the face of the dead and it is not wise to review often this procession of other selves. Occasionally it answers the prayers of Maeterlinck: "Teach me what it is best to do with my life." Customarily, though, it is better to follow the splendid motto of Sarah Bernhardt, the motto of the brave march: "Head on, face front."

The Details.

"D'you recollect old wot's-is-name?" "I'm with the collar?" "A! Wot abah! 'im?" "E'ad to go down (Jerk of the head) you know—they giv' 'im wot you call it—didn't arf git it. I don't think!" "Reely!" "Adn't you 'ard, then?" "I did 'ear something, but no details, not afore now."—Punch.

It Depends.

"Do you think a man should take his wife into his confidence regarding his business affairs?" asked the man who had just been married. "If he isn't making any money, yes," replied the experienced one, cautiously.—Philadelphia Record.

Exclusive.

"Don't you desire to be famous?" "No," replied Mr. Groucher. "I don't care to have my name in the encyclopedia along with those of whom I do not approve in the slightest."

MILLIONS OF FAMILIES are using SYRUP OF FIGS and ELIXIR OF SENNA

FOR COLDS AND HEADACHES, INDIGESTION AND SOUR STOMACH, GAS AND FERMENTATION, CONSTIPATION AND BILIOUSNESS, WITH MOST SATISFACTORY RESULTS.

No small amount of argument has been indulged in regarding the responsibility for the recent break in the levy of the Los Gatos creek. Many contend that the Board of Supervisors are responsible and that it was their official duty to see that the creek bank was in proper repair at the expense of the County. Others contend that the ditch company are responsible, and still others that the property holders where the break occurred should have seen that the stream was kept within its proper bounds.

Keen indignation was felt throughout the entire community last week because of the fact that the two supervisors, Mr. Mitchell and Mr. Roll, were so slow about getting on the scene and endeavoring to do something to check the flow of water before so much damage had been done. There may have been good reason why neither man put in appearance sooner. Mr. Roll, it must be remembered, has been a very sick man during the past winter and has been in the hospital much of the time; and it is claimed that Mr. Mitchell, when he did get to the scene of the accident, was in no condition to be there; and regardless of the fact that he had been unable to take any nourishment into his stomach except a little buttermilk for some time, he work in the water waist deep and proportionately as hard as anybody. It does not appear from this fact that Mr. Mitchell wilfully neglected his duty in regard to the matter.

The question at issue is, who is responsible for the damages done, and who should repair the break? The supervisors claim that they are not legally liable; but it is said that they have agreed to co-operate with the property holders in making repairs and paying the expenses. Some of the men living below the break seem not to be satisfied with this action but, it is said, they have threatened to sue the Board of Supervisors and hope to make them pay heavy damages. Whether this is possible or just we are not prepared to say, but we do not think it is the proper course to pursue at this time. The break should be permanently repaired, and the work should be done as soon as possible, before we have another hard rain and further damage is done. The threatened suit has only offended the supervisors and succeeded in blocking the work so far as they are concerned, as they claim that they are not legally bound to make the repairs and we should appreciate the sympathy and help which they have offered.

While it may not be obligatory that supervisors keep up repairs on creek banks, yet as a matter of policy and of protection to the County's interests, they might well expend a few thousand dollars on such work. Five hundred dollars spent at the point in question last fall would have saved the County many thousand dollars in repair of its roads, etc.; and, furthermore, had the creek succeeded in making a new channel for itself it would have involved the necessity of many new bridges at an enormous expense.

The pitcher broke, the milk spilled and Campbell got wet. Before we quarrel about who broke the pitcher, let's all get together and patch it up. By that time we will be sufficiently calmed down so as to be able to think and act reasonably.

BIG men sometimes ride in "special" cars but not often is such a sensation experienced by a newspaper man. Last Sunday morning the Press editor and his family had the exclusive use of a whole train as they passed over the scene of the recent flood to Los Gatos. There were three coaches besides the mail and express car. The family was entertained by the conductor, the two brakemen and the newsboy.

Geo. W. Lee, County Probation Officer, was in town this week on business pertaining to the juvenile court. There may be some startling developments a little later.

St. Patrick is being duly honored today. Altho our town has never been very badly afflicted with snakes yet we appreciate what the patron saint has done for the Emerald Isle.

RAY W. HARDEN, publisher of the San Jose Magazine, was in town this week and left a copy of the April number of his splendid little magazine at this office. It is Panama-Pacific number.

The Local Option bill passed the Senate yesterday by a vote of 28 to 12. It provides for the supervisorial district as the unit of option, and also that incorporated towns may decide the question for themselves.

In speaking of the Panama Canal, David Starr Jordan says, "The greatest benefit will consist in the increase of farming and in the development of the resources of the country districts." (From San Jose Magazine.)

EDITOR SMITH of the Los Gatos Mail says, "A good way to get rid of thrip is to catch them and bite their heads off." But say, Bro. Smith, supposing the thrip should bite first, where would you be? Funny fellow, that Smith.

A great deal of heavy spraying of fruit trees has been done this week in hopes of killing the thrip which have been coming out in large numbers. Some thought the flood would kill the little pests in the ground but it seems not. Many orchardists in different parts of the county have been burning sulphur in the orchards, but so far as we have talked with them it has not done much good. One man as an experiment went so far as to kill the blossoms yet it did not seem to affect the thrip. The Bean Spray Pump Co., San Jose, who manufacture the pumps and handle all kinds of spray material, say that they have been selling large quantities of Black Leaf and Distillate Emulsion to the local growers. Many are using lime, 70 pounds to 100 gallons of water.

A LAW was recently enacted by the Legislature which will affect the conduct of the boys on the streets of Campbell. The bill prohibits the sale or giving away of cigarette papers or any tobacco preparations to minors under the age of 18 years. It changes section 308 of the penal code, which, in its old form, provides that cigarettes shall not be sold or given to children under 16, but contains a proviso which is omitted from the new law, permitting boys to buy and sell all forms of tobacco with the consent of their parents or guardians. The bill raises the age limit of sale of 18 years, because, as Senator Roseberry said, physicians and educators declare that the mental and physical development of children is interfered with by the use of tobacco, and that the age of 16 years is too low a limit. Senator Strowbridge stated that at the Preston School of Industry observation had shown the injurious effects of cigarettes and tobacco on boys. Within ninety days after the act goes into effect a copy of it must be posted conspicuously in every store where tobacco is sold. The Secretary of State will furnish copies to dealers.

Senate Daily History

On file at the Press office, for public inspection. The History contains a synopsis of titles and history of Senate bills, constitutional amendments, joint and concurrent resolutions. Up to February 27th the Senate had received 1242 bills.

Dr. D. S. Jordan Writes on Red Plague

"There is no more important matter to come before civilized nations than that of the absolute extermination of the Red Light districts of our cities. This is not a question of morals, primarily. It is that of self-protection of civilization itself. Practically every prostitute, the world over, male or female, is the victim of one or the other of two slow-maturing diseases caused by the presence of minute but deadly plants in the blood tissues. These maladies constitute the Red Plague, terrible to men, horrible beyond suggestion to women and children. The vilest of these two diseases may be communicated through towels, drinking cups and the like to people wholly innocent. With the one, children may be infected at birth. The other is the chief cause of blindness, of sterility, and of many other ills.

"It is necessary to have these maladies treated as other infectious diseases are treated, those suffering from them to be segregated and sent to hospitals for such cure or palliation as medical science may find possible. Medical inspection of houses of ill fame is a dangerous farce. It seems to give a guarantee of immunity when no immunity exists. Such inspection can detect superficial symptoms only and to trust to it is to license the destruction of new victims. The great and unanswerable argument against the saloon as we now know it, is its alliance with the social evil, the fact that it is the open door to the Red Light District.

"Thus far the only safety in dealing with the plague is to abolish the plague spots, to destroy the centers of infection. To deal with the Red Plague we must destroy the houses of prostitution and send their inmates to the hospital. To abolish these houses, the only sure way is to attack their owners. To punish the inmates serves no purpose. These live in eternal torment already. It is understood that the present Iowa law against houses of ill fame, whereby the owner of such house is held immediately and rigidly responsible, has proved effective. If so, the sooner we have it in California and everywhere else through the United States the better. Surely the decent people, not engaged in the White Slave Traffic, the men who love their wives and children and who would protect them from the vilest of diseases, far outnumber those who are making money out of crime. Every move toward the suppression of the Red Plague makes the world better and safer for every man and woman. The whole moral strength of California should be on the side of every efficient measure working towards making this a clean State.

Very truly yours,
DAVID S. JORDAN.

H. W. Weeks was this week united in marriage to Miss Florence More of Sunnyvale. They will reside in the cottage just north of Mrs. Waite's home.
